

## Statistics Project Outline

Each number represents a separate page of the final project.

1. Cover Page: Title, Name, Visual
2. Small number question (Part 1) and a frequency table showing data
3. Dot Plot representation of data
4. Mean, Median, Mode (showing ALL work for mean and median)
5. Observation Page for data - At least three statements based on the Dot Plot graph (these could be typed and or printed neatly)
6. Large number question (Part 2) and a frequency table showing data (using appropriate intervals)
7. Histogram representation of data (with title, labels, and appropriate intervals). NEAT (using graph paper or paper drawn with rulers)  
**On this page, identify the Mode**
8. Observation Page for data - At least three statements based on the Histogram (these could be typed or printed neatly)
